Nuclear Weapon found!

Near UN Building in New York

FEDS Unable to Disarm it; Detonated at Sea!

Several reports that a Nuclear weapon found at the UN building in New York City was detonated at sea, off the North East Atlantic coast on July 15th, 2004, have come to our attention at this time.

These reports have come in via the mainstream Bible prophecy watchers amongst the American Trinitarian community.

These reports first came to our attention from a recent, televised broadcast by fundamentalist minister Kenneth Copeland concerning the nuking of New York City, and his reports of talks with Oral Roberts, who is now

associated with the Methodists here in the United States that helped to build and fund his University in Tulsa, Oklahoma.

As the fame of the Cause of God has spread around the world, especially since the collapse of the Trade Towers at 9-11 in the year 2001, the year Baha'u'llah prophetically gave as the year 'Mustaghat' (the letter-number values of which adds to 2001), mainstream Christian Bible ministers and scholars have become exposed to, and acquainted with, our press releases sent out since the early 1990s almost a decade and a half

ago, that precisely give this current scenario of the UN building being nuked.

The fact that these have been documented through longitudinal scientific studies at the University of Montana, as well as published in Harper's magazine, reported by Michael Moore on his program "TV Nation", and published in a variety of media venues, such as the articles of Mark Matthews in the "Independent", all document that these others who have been lost in the confusion are only **NOW** waking up to the reality of what God has in store for all the

WORLD LEADERS WARNED!!

In six important Epistles corresponding to Baha'u'llah's Great Announcement in the Surat'ul-Haykal (Surah of the Temple), world leaders have received the guidance for the Baha'i Peace Program promised and foretold in the sacred Will and Testament of 'Abdu'l-Baha.

These six epistles - including the message of the Kingdom and Catastrophe - were sent to the world leaders as cover letters introducing

the book "King of Terror" to them as a matter of urgent and necessary reading. The re-election of George Bush by an overwhelming majority, as well as more of his party's winning of seats in the Congress of both upper and lower houses, shows the American peoples' overwhelming support for his WAR, and thus brings culpability upon the citizens of America who are for this hostile takeover in the Middle East.

people.

Still steeped in lethargy and denial, these lost souls are unable to perceive that, in fact, Christ HAS COME in the potency of the “Everlasting Father” seated upon David’s throne (Is. 9:6-7) fulfilled in the Human Temple of Baha’u’llah, as preserved, defended and upheld by the true Baha’is under the provisions of the Covenant with the living Davidic King as the current president of the true Universal House of Justice of Baha’u’llah now established and fully active in the world today (www.uhj.net).

According to Bible prophecy watcher David Wilkerson of “ZionsCry” (a prophecy watch magazine), the facts of the UN NUKE were first broke publicly by Steve Quayle, affiliated with the North East Intelligence Network:

Nuclear attack on New York stopped July 15th

“This was broadcast on the Steve Quayle July 15th evening radio program. July 15th Federal agents narrowly averted a nuclear detonation in New York City involving Al Qaeda terrorists. The information at the time was that an actual detonation could have only been an hour or two away. Several components of a nuclear device - possibly a nuclear trigger - had been intercepted on its way for final assembly and detonation. The information was that it was to be used In New York against the United Nations building. Al Qaeda had them being very antsy and angry about the whole thing going awry, but they still vow to carry out their plan. This is from Steve Quayle.

“The more feedback I get, the more sure I am it is true that two nuclear bombs were found in the North East USA, one in New York City last week.”

Reports state that the nuclear bomb at the UN in New York City was unable to be diffused, forcing the Feds to detonate it at sea. Seismograph readings of that specific area for July 15th, 2004 confirm this report (see charts attached), as well as further reports of inordinate amounts of dead sea life, such as fish, whales etc., washing up upon the North East Atlantic shore (see related story below), in the following days to come. This is spoken of in the Book of Revelation—that the “sea would give up the dead in it” (Rev. 20: 13) as a result of this poisoning or radiation—as these nukes go off in the sea, “like a great mountain burning with fire” turning the sea to “blood”, referring to the death and poison caused as a result (Rev. 9: 8, 9).

Wilkerson reports:

NYC NUKE July 15

“As far as I know, Steve Quayle publicly broke the DEAD SILENCE on the nuke that nearly incinerated New York City on July 15th. It had been pre-set to go off inside two hours... He said you will NEVER hear this in any mainstream NEWS. North East Intelligence Network put more on this in their PAID subscribers report. They will not give me permission to release it, but other sources I have are not denying it.”

ZION’s CONCLUSION

“It appears TRUE a nuke (one or more??) was detonated at sea, off the North East Atlantic coast on July 15th, 2004.

The story is - it was found in NYC and another between NYC and Boston, I presume along the commuter train track. CNN carried a story about that train being stopped and heavily inspected afterward. The story is, one could NOT be disarmed. It had been pre-set to go off within two hours near the UN building.”

July 17 CONFIRMED

“A ‘ZionsCry’ reader sent me this. I will not give names. It is too dangerous. I told him I was putting the above in the July 18 issue; he wrote:

‘What you are posting is in fact true based upon very well placed sources I have. ___ lives in mid-town Manhattan; I am moving back to our apartment we have maintained in NYC in one week, two blocks from the UN! Obviously I am rethinking that plan. Please pray for me for guidance. I will do as the Lord leads. Please as much as possible prepare food, water and self defense as things are going to get very crazy shortly. If I can help in any way please ask. I admire very much the work you are doing.’”

For many, many years now, the Center in the Baha’i Faith has been warning the people about this very catastrophe and destruction, which is but the trigger to unleash all the rest of the disaster foretold to come.

The International Baha’i Council has again stressed the importance of loyal Baha’is who are willing and able, to do what they can do to relocate their livelihoods, jobs, families, careers and homes, to safe and economically prosperous areas in the Rocky Mountains of the

“AND THE SEA GAVE UP THE DEAD IN IT”

Book of Revelation; Chapter 20, verse 13

Inordinate amounts of dead sea life, fish and whales, etc., washing ashore on the Atlantic coast in the wake of the New York City UN building nuke detonation at sea have been reported. Investigators at the scene ruled out man-made causes, such as “toxic chemical spills” or “pollution-fed algae blooms”, leaving the only possible explanation to be “*what scientists believe was a sudden shift in the temperature of the ocean*”, a report from the Washington Post has stated.

Further analysis of the weather systems and storms at that time shows that no cold swells have been scientifically possible in that area, thus limiting the cause to a sudden raid in the temperature. Other sources have reported that they believe the sea life to be killed in the aftermath of not only the heat of the thermo-nuclear detonation but also from the radiation.

“Up and down the beach at Ocean City, they washed ashore: dead fish, rotten and smelly, victims of what scientists believe was a sudden shift in the temperature of the ocean.

“More than a million Atlantic croaker fish are believed to have died in recent days off the Maryland and Delaware coasts, and many of them have turned up on the beaches from Ocean City to Delaware’s Indian River, Maryland officials said.

“The fish kill, which could be the largest in Maryland’s recent history, showed no signs of a man-made cause, such as a toxic chemical spill or pollution-fed algae bloom, said Rich McIntire of the Maryland Department of the Environment.

“Instead, officials said the fish might have been killed by a natural phenomenon called an “upwelling,” a sudden surge of cold water from the bottom of the ocean.

“When the water reached the area where croakers live -- depths of 60 to 90 feet -- the temperature dropped from about 60 degrees to about 40 to 50, scientists said.

*“Many fish simply died of ‘thermal shock’ -- stress caused by the change of temperature. McIntire said the fish were probably five to 14 miles offshore when they died.” (Washington Post; August 4, 2004) **Dead, Cont. pg. 6***

United States, or relocate to other safe nations around the world.

These statements have been sent out by the International Baha'i Council, which is the Universal House of Justice of Baha'u'llah, in several previous guidance letters in and about the time of the year 2000.

Dr. Jensen explained that some people will choose to remain behind and perish with the rest of the people in this disaster, for the purpose of giving those other people comfort in their last minutes and hours before the bombs drop and kill them all off of this planet. In this way they can choose to remain left behind to lead many into the Kingdom in the next world, through the teaching they can do in those areas they find themselves irretrievably trapped in, that are soon to be obliterated in the oncoming global thermonuclear war that is to kill one-third of mankind in one hour. Whatever decisions are made, the time of this foretold and predicted disaster is *UPON US NOW*, and the choice to survive and continue the teaching effort upon the earth after this calamity rests upon the individuals themselves.

An interesting note from the prophecy watcher is this comment he has also made:

FINAL PLEA to AMERICA :

"Tell the Leaders of America, that I, the Lord God almighty said, that time is running out speedily. I have sent warning after warning, message after message, prophecy after prophecy; spoken by the mouth of My anointed [the descendant of king of David], and they have not taken heed. My words have fallen on deaf ears.

You have chosen instead to heed lies and falsehoods, rather than give ear to TRUTH. You have opted to call good evil, and evil good. I have been long suffering and patient with you, I have long since tolerated your whoredoms, and adulteries, your rebellion, witchcrafts, your pride and idolatries."

The writers at the Noonday Sun urge those who can, to relocate to safe areas before they may not be able to do so.

"O God! Refresh and gladden my spirit. Purify my heart. Illumine my powers. I lay all my affairs in Thy hand. Thou art my Guide and my Refuge. I will no longer be sorrowful and grieved; I will be a happy and joyful being. O God! I will no longer be full of anxiety, nor will I let trouble harass me. I will not dwell on the unpleasant things of life.

" O God! Thou art more friend to me than I am to myself. I dedicate myself to Thee, O Lord." ♪

Baha'i author, Guardian, make local radio show appearance

Discuss newly published "King of Terror", present solution to world ills

By Kay

The war in Iraq is an international debacle that calls for an international, spiritual solution.

That is the message "King of Terror" author and International Baha'i Council member Victor Woods, and Guardian of the Baha'i faith, Neal Chase, delivered on election day to a local audience in a recent appearance on Aspen radio. They had been invited as guests on "Bach Talk" to discuss the newly published book.

The French seer, Nostradamus, born in 1503, prophesied specific world events that he said in 500 years would come to be fully realized in the year 2003, Woods began.

Woods noted that this was the year President Bush invaded Iraq. Among Nostradamus' most famous prophecies is one pertaining to how there would be a great "king of terror" who would arise and begin World War III.

"And this book describes how these prophecies are fulfilled today," he said.

Both interviewers listened intently.

The show's host, David Bach, pointed out the prophecies in the book concerning the coming of the great king of terror in the year 1999, the year Bush began his campaign for presidency. And how he'll bring back to life the great king of the Mongols coinciding with the 9-11 event that shook New York City. "These are scary things being said in the 16th

century," Bach said. Woods agreed, but that the prophecies serve as warning signs for the people.

Woods clarified how the king of the Mongols could be none other than Bush, as opposed to Saddam Hussein or Osama Bin Laden. He explained that the king of the Mongol empire was Genghis Khan who went into the land of the Muslims to destroy them. Unlike both Hussein and Bin Laden, Genghis Khan was not himself Muslim, so Nostradamus was specifically referring to a non-Muslim who enters the area of Iraq between the two rivers, specifically the Euphrates where, in Rev. 9:14, it says the four winds are released that are to kill one-third of mankind in one hour.

Chase chimed in, noting that both Saddam Hussein and Osama Bin Laden are in the French seer's prophecies as well, the latter being called the "white turban king", Saddam being "Mabus" in the mirror.

"So Bush, Osama, Saddam, and this debacle that took place in the year 2003, is what the entire prophesied king of terror scenario is," Chase said. And now, "Osama has admitted to the 9-11 attack, yet Saddam was attacked in Iraq reportedly for being involved in this", he said.

"So it's just a big international debacle and we need an international solution."

Victor added that the "white turban king" (Osama Bin Laden) uses the Christian Crusade as an excuse to wage war and issue a "fatwah" (religious edict) against the UN. And

Bush re-election fuels Bin Ladens plans for US attack!

By Kay

As was reported in the news, subsequent to Al-Qaida leader Bin Laden's admission to his involvement in the Sept. 11 attack on the World Trade Towers three years ago, just days before the election he released a video in which he threatens a spectacular attack on the U.S.

According to news sources, Bin Laden's actions weren't just meant to interrupt the elections, as he has warned that if Bush is re-elected he still plans to attack the U.S.

"The video, the first of Mr. bin Laden to surface in more than a year, disrupted both camps' plans for the final weekend of campaigning and injected an element of uncertainty into the deadlocked contest.

"That was NOT his intent, however; bin Laden believes his issues and mission are far FAR larger than can encompass a single US presidential election and he tells us that." ("Bin Laden shocks US" by Barbara Bryant; Al-Jazeera, November 1, 2004)

In fact, Bush's re-election sends the message that the American people support Bush's war in Iraq. This shows Bin Laden, and the pro-Saddam Iraqis, that he must retaliate again. The Baha'is have warned of this retaliation as far back as 1992.

The tape released by Bin Laden is in keeping with his earlier warnings that he definitely plans an

“Dead sea life is what I have been waiting for; to show up from that July 15th NYC nuclear bomb detonated at sea. Up and down the beach at Ocean City, dead fish washed ashore, rotten and smelly. Are they radioactive?? The seagulls won't even pick on them.

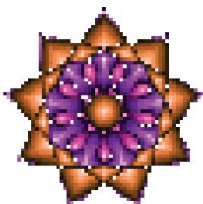

“More than a million Atlantic croaker fish are believed to have died in recent days off the Maryland and Delaware coasts, and turned up on the beaches. Croakers live at depths of 60 to 90 feet. These fish MAY BE IRRADIATED

“I DO NOT buy the official explanation!! My friend also said [with] releasing the bomb in the ocean [there] should be dead fish somewhere and there would be a lot of high temps from it. So a sudden change in temp killing the fish is perfectly in line with a detonation.”

ZION'S CONCLUSION

“It appears TRUE a nuke (one or more??) was detonated at sea, off the NE Atlantic coast on July 15th, 2004. The story is - it was found in NYC and another between NYC and Boston, I presume along the commuter train track. CNN carried a story about that train being stopped and heavily inspected afterward. These people have shown that they support the U.S. foreign policy which contradicts Moses' “Thou shalt not kill” and Jesus' commandment to “love one another.”

Likewise, in the Koran, Muhammad forbade the Muslims to harm the “peoples of the Book”, referring to the Christian and Jewish people. Thus, this is a religious issue where corrupt clergy from these three faiths have fomented war between their followers in violation of their commandments given by Moses, Jesus and Muhammad, and have thus created conflict and strife in which a global military-industrial complex can have room to maneuver for making this worldwide and Mid East oil grab. The Book and Epistles were sent to: George Bush, Kofi Annan, Jaques Chirac, Putin Blair, and the Pope.

These correspond to Baha'u'llah's Surah-i-Haykal, which is the announcement and proclamation to the Beast countries and Pope about the transformation into Living Creatures and the acceptance of the throne of David. It is called “Haykal”, which literally means body, or temple, as the true IBC/UHJ is in the form of a five-pointed star (haykal) with a head body and hands—the head of the IBC/UHJ being the throne of David, and the four limbs referring to the four living creatures, according to the Bible prophecy and the writings of Baha'u'llah which pertain to this all-important matter. Other leaders and media moguls received the book as well, which includes Larry King; Ted Kennedy; Kerry and Edwards; Jesse Jackson Jr.; Hon. Rev. Al Sharpton; The Martin Luther King

Family Foundation; Gore Vidal, and many others.

As the prophecy continues to be fulfilled in increasing intensity, and as the UN building is nuked—leading into the establishment of the “World Super State” which Baha'u'llah anticipated (see issue #5 of the Noonday Sun for more)—the spiritual receptivity of those who survive these troublous times will increase until all the world becomes the promised sublime paradise of God promised to be established upon the earth as it is in heaven.

that the UN fulfills prophecy for the “blue turbon king”, referring to the UN troops who wear blue hats.

The Solution?

Chase explained that the UN is broken; therefore an international court or tribunal that is representative in nature is needed, and that this form of international government, coupled with collective security, would foster a divine economy.

The US, populated by about 240 million people and which now only sends one representative to the UN, might send one person per one million people, thereby sending 240 representatives, Chase explained.

Other smaller countries, such as England or France, might send two representatives.

“In a real international tribunal the people of the states here in this country would elect these representatives; they’d be ratified by the upper and lower houses of the senate and the House of Representatives, and executive branch. If they bump those people that we elect then we can elect somebody else that they do ratify,” Chase said. Smaller countries would mean fewer representatives, larger countries, such as China would have more, he added. This way the people will have collective security, and the world government would then turn the nuclear weapons over to this council, he said.

“This is where Bush was right. He says, ‘We’re not going to be governed by an international (foreign) government. But this is where Kerry was right; he says, ‘We need to have an international government.’ But the international governments in place right now are broken; they’re not representative, there’s no collective security, and we can’t just have ourselves ruled by a foreign government,” Chase said.

“Whoever’s elected needs to participate in setting up a real, spiritual, international government. And this will set up the divine economy. We’ll have a worldwide economy that’s better for everybody,” he said.

Woods pointed out that no system can work unless the people in it are spiritual. Chase agreed, adding that these international problems are fomented by the clergy. “Jesus said, ‘love one another.’ And Moses said, ‘thou shalt not kill.’ So the Jews and the Christians shouldn’t be involved in these wars. And in the Koran, Muhammad said the Jews and the Christians were people of the book and forbade the Muslims to harm them in any way. So the infidels that deserve death, that are mentioned in the Koran, are people who accepted Islam and

“This is where Bush was right. He says, ‘We’re not going to be governed by an international (foreign) government. But this is where Kerry was right; he says, ‘We need to have an international government.’” --N. Chase

and then violated the Koran; so Osama Bin Laden is not in line with the Koran in harming the Christian West or the Jewish people,” Chase said.

“The Jews should obey Moses, ‘Thou shalt not kill,’ and the Christians should love one another, including the Muslims. So what’s fomenting this is the Christian clergy in this country that has Bush wrapped around their finger in his born-again-ism, and fundamentalism is misguiding him in international policies. And the pope, since Kerry’s a Catholic, isn’t helping Kerry either. And the Muslim clergy, such as Osama Bin Laden and other ones,

they're not helping.

"We need to have a freedom of religion internationally, with a clergy that are true to their holy books. Get these people to follow the golden rule, set up this international tribunal so we can have the divine economy, and international trade will be stimulated," he said.

Asked if they believe the US may see another 9-11 type event, Victor emphasized that in "King of Terror" the Baha'is show that for almost 15 years they've been saying these types of things, warning the people. "We've been on television, radio, newspaper and magazines throughout the country warning the people that if they continue to go down this 'black road' (native American prophecies) to destruction this is where it's going to end up. And one of the things that was warned of, was how that in New York City the World Trade Towers would be attacked. The first bombing of the trade tower happened. But they didn't want to see that we were saying this before. So because of this, they didn't want to hear what we were saying. They didn't want to examine and investigate these things that we're saying are happening, and that there is a solution," Woods said. "So then eight years later was the 9-11," Chase added. "So what has happened now, they are continuing to go down this dark road of destruction," Woods said. "And they're not wanting to implement any sort of spiritual solution; they're not wanting to look at the solution that all these books that Neal was mentioning have in them and so of course now we're going towards the next

destruction of New York which is prophesied to be of much greater destruction than the 9-11."

Chase noted that Genghis Khan established the great world empire through force and killing instead of through peaceful means.

"So what's happening now, if you look at it through a military standpoint, is we are allied with Israel and we occupy Iraq. So we surround the country of Syria. We occupy Iraq and Afghanistan and we surround Iran. We occupy Afghanistan and have nuclear allies in India so we surround Pakistan. So we're militarily ready to seize the entire Middle East if another 9-11 style event takes place, like the nuking of the UN building in New

York," Chase said.

"Then this will give the green light to also use nuclear weapons and to invade these other countries and seize the Middle East."

Chase added that unfortunately, the Christian clergy in our country will see this benefiting them and their views of the scriptures, and some Jewish leaders will view this as a means to subdue the Arab and Muslim world.

"It's a travesty, and we're going to see the conflagration that will take place," he said. "But, we don't need to have the battle of Armageddon in

which one-third of mankind will be killed in one hour. "The nuking of New York is enough of a bump on the head to wake people up that we need a representative form of international court to try people like Saddam Hussein. Instead of Bush going in there as an army to take him out, the court would take care of this so then they couldn't attack the US. If the US helped in the arresting of the person that the court found a warrant for, it would be an international problem; and as it would be elected by all the countries and peoples of the world they would all be in support of it because they participated in the formation of it, instead of just sending one representative to a broken UN..." Chase said.

The way the UN is centrally broken, Chase explained, is that the security council rules with five permanent members with veto power that have nuclear weapons. "Therefore if I'm a country and I want to get onto the Security Council I have to develop the nuclear bomb also. So the structure of the UN causes the proliferation of nuclear weapons. Whereas, if we had a collective security this wouldn't take place," he said.

Bach noted a concern that with this type of system China would essentially rule the world, considering they have the most populated country and the most power, and that smaller countries such as Africa, would be nothing. "It would be an international federation. ... [other countries] wouldn't be allowed to come into our country because it would be a federal system," Chase said. "The constitution that would be

Radio appearance, Cont. pg. 9

set up internationally only governs international problems. It would have no jurisdiction with the internal affairs of the United States of America at all. ...

"The United States would be governed by Americans and run by Americans and would not be under any foreign rule. It will be self-ruled because it will be an international commonwealth of economy; and it wouldn't be an empire, it would be a federation. For instance, prostitution is legal in Las Vegas and nobody can stop it because that's their state law. Whereas gambling is legal there too – in another state it's illegal. So the laws that would govern the (United States) would be legal for the people here, and even if they're going to ban what we consider to be freedoms in other countries the United States citizens would not be subject to that here, because we would be governed under our own law nationally and locally," Chase said.

Bach pointed out that according to worldwide polls, if the world could vote, 70 percent would vote for Kerry and not for Bush showing that the world overwhelmingly favors Kerry. Therefore could a representative government or court be able to come in and say, "well look, 80 percent of the countries don't like Bush, we're gonna take him and put him in a prison cell right next to Osama."

"No, it's illegal," Chase said, reiterating that countries cannot interfere with the internal affairs of the US.

"As long as they're not invading Canada and creating an international incident, they have no business coming into our country at all. The same way the FBI has no business to come in and deal with local cases or

state cases when it comes to problems that arise that way; it's a federal issue," he said.

Woods clarified it would be like saying, "the United States of the world".

"... We have our states here in this country. Each one has its own laws and this is how its governed in a world federal system," he said.

In closing, Woods emphasized that this is a spiritual problem that requires a spiritual solution.

"What Nostradamus says, is that this is the time of the Second Coming of Christ which we're saying in this book has already happened. And that the world has been transformed from the age of the horse and buggy to what we have today," he said. Chase added that people need to be able to think for themselves.

"Very few people have heard of Baha'u'llah and the Baha'i writings that pertain to the formation of the World Court, the League of Nations and the United Nations. If they had this information, they would see the prophecies for the establishment of the World Super State that is not going to be spiritual in nature," he said.

"And people need to go out and read a lot more. They should read the Koran, the Bible, the Baha'i books, the Hindu writings—and they will see some of the religious roots of the current problem that we're in." ب

ANNOUNCEMENTS

"King of Terror" translated into French!

The completed book, "King of Terror", is currently being translated into French by Baha'is Under the Provisions of the Covenant in France, to be distributed throughout the country.

A complete, updated version of the book is available for free to read and download in printable format at: www.nostradamusprophecy.org.

This book, a culmination of years of research done by the Baha'i faith's leading experts on biblical and related prophecy, is an accurate and exciting look into the insights of the 16th century French visionary, Nostradamus, pertaining to current world events unfolding in the Middle East leading us ever closer to the final battle of "Armageddon" and the Kingdom of God on earth brought by the second coming of Christ, Baha'u'llah.

"could well face a repetition of the 9-11 attacks."

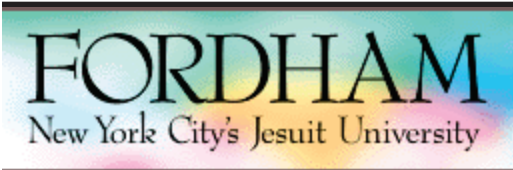

"Despite entering the fourth year after September 11, Bush is still deceiving you and hiding the truth from you, and therefore the reasons are still there to repeat what happened," [Bin Laden] said. (Suzanne Goldenberg; "The Guardian", Oct. 30, 2004)

And President Bush would more than welcome such an attack on New York City and the UN building as this would prompt him to rally all the nations to back his plan to create a "World Order" and call for a state of emergency dismissing Congress and lay aside the U.S. Constitution. ب
